

How does Sanofi try to advance safety science?

1 Responsible Transparency

Sanofi PSPV passes along all reports to the FDA and VAERS, and is committed to making its findings available to healthcare professionals and the public

2 Publication

In 2025 alone, Sanofi published **25** scientific articles for PSPV and safety information is a part of our clinical study publications and product labels

3 Innovation

Patient voices

Sanofi has initiatives to include patient preferences in the development programs for new vaccines and to support regulatory decision-making

AI helps ensure reports are addressed as soon as possible

Sanofi PSPV has pioneered the use of AI to ensure safety reports are addressed expeditiously, with human verification
